RICHMOND, CALIFORNIA

FRIDAY, DECEMBER 3, 1920.

NUMBER 348.

## TERMINAL QUESTION TO BE HEARD BY R.R. BOARD TODAY

### A MESSAGE TO THE RICHMOND PEOPLE \$1,000,000

An appeal is made this morning for the undivided interest and immediate action of every property holder in Richmond, in the present intent to carry the Santa Fe terminal to Oakland and strip Richmond of its strongest force in the rail and water terminal facilities. Every business man, and every one concerned in the future outlook of this city should seriously consider this subject. To show force in protection of Richmond's interests there should be a representative delegation at the hearing before the Railway Commission in the Flood Building in San Francisco at 10 o'clock this morning. Everyone who can attend this hearing should do so. There is no restriction to the hearing. The delegation from Richmond will be regarded with considerable influence as showing Richmond force and stability.

### NEEDED FOR SAUSALITO S. F. FERRY

A stock issue of \$1,000,000 is involved in a petition that will be presented today for approval at a hearing before H. D. Loveland of the State Railroad Commission, the recently organized Golden Gate Ferry Company, petitioner, stating that it will require the amount named for the purpose of boats, building of slips, dredging, working capital and for other purposes. Par value of the stock will be \$100 per share.

This company was organized for the purpose of operating an automobile ferry between Laguna street slip in San Francisco and Sausalito. The motor traffic has been gauged by the incorporators, who estimate carriage in 1921 of 228,000 cars, at \$1.19 each, 559,000 passengers at 18 cents each, and 34,200 tons of freight carried by auto trucks at \$3.10 per ton. Marin, Sonoma and Napa County will be served by the utility.

Two sidewheel boats of eighty cars capacity are to form the fleet. The expenses listed to the commission all are for organization, equipment and maintenance costs, with the exception of 12 1/2 per cent of the stock, equivalent to \$125,000 for stock salesman's commissions.

Officers of the company are Harry E. Speas, San Francisco, president; Jose Lucientes, Corcoran, vice president; George E. Rapp, San Mateo, Secretary-treasurer; M. J. Zicovich, Sacramento; Frank L. Rust, San Francisco, directors.

### GOVERNMENT IS MAKING TEST LAND SAN PABLO

The ground in the vicinity of Point San Pablo is being tested by a "borer", sent down from Mare Island, by the naval authorities. Upon the recent visit of the congressional committee this site was pointed out by the Richmond Industrial committee and it is said that many of the members of the party looked with great favor on it.

The land at that place would make an ideal site for a naval base, and it is thought the influence of the Valero authorities will be given in favor on it.

The work of testing the ground has been going on quietly for the past week and it was known to but few in this city.

Upon the return of the congressional committee to Washington, sessions will be held and the site for the naval base will then be chosen.

There are many objections that have been raised to both the Alameda site and the Hunters' Point location.

### REMOVAL SANTA FE SERIOUS THIS CITY

Energetic citizens and manufacturers of Richmond gathered at the Chamber of Commerce last night to discuss the situation confronting this city of losing the Santa Fe terminal, the hearing place in San Francisco this morning before the Railroad Commission. Several vital points were brought out, each with merit for careful consideration of every business man and every property owner in the city. That Richmond will lose the Santa Fe terminal for an indefinite term is certain. The controversy following an order of the Railroad Commission carries with it the stipulation that the Santa Fe and Southern Pacific shall operate a joint terminal at the Oakland Mole; that if the two railway lines cannot agree on terms of service, then the Railway Commission will fix the rate which the Santa Fe shall pay to the Southern Pacific for terminal privileges. The stipulation is also made that the Richmond terminal carries hazard and inconvenience to the traveling public.

Change Would Mean Loss The result of this order if sustained means that trans-continental trains will probably run through Richmond without a stop, necessitating the return of Richmond passengers aboard trans-continental trains going to Oakland and returning by local train to this city.

That fully 200 families of Richmond will be affected by the change (Continued on Page 6.)

### TEACHERS OF COUNTY TO GATHER SATURDAY

Superintendent of Schools William H. Hanlon announced yesterday that Dr. Virgil E. Dickson of Oakland had accepted an invitation to speak at the meeting of Contra Costa County teachers to be held at Martinez Saturday, for the purpose of discussing the advisability of instituting the Binet intelligence system in county schools as a means of grading pupils.

Dr. Dickson is director of research and guidance of the Oakland and Berkeley schools and an authority on the Binet intelligence test. If it is found feasible to introduce the system in Contra Costa county schools teachers' committees will be appointed to carry out various phases of the work and arrangements for conducting practical tests will be made.

### Richmond Club's Annual Bazaar Opens this Afternoon

Everything is in readiness for the bazaar of the Richmond Club and the Junior Richmond Club, which opens this afternoon at the clubhouse on Nevin avenue, between Eleventh and Twelfth streets, and which will last all during Saturday. Many articles of fancy work, candies, meats, salads, cookies and other things will be placed on sale. All are home-made, and the ladies have put forth a great deal of effort preparing for the event.

It is the desire of the ladies to realize as large a sum as possible, which will be applied to the mortgage on the building.

Mrs. C. B. Evans is the chairman of the general committee of arrangements; Mrs. C. S. Gibson will be at the head of the fancy work booth; Mrs. R. N. Peterson of the apron booth; Mrs. R. Spierach and Mrs. O. R. Ludewig the meat booth; Mrs. C. N. McCullough and Mrs. W. D. Hartley the cake booth; Mrs. G. E. Milnes in charge of the salads; Mrs. J. O. Mixon the cookies, Mrs. Billy Brown the grab bag.

There will be a coffee and pie booth and a light lunch will be served during the continuance of the bazaar.

### GRAND JURY TO CONSIDER SALARIES OF CO. OFFICERS

A meeting of the 1920 Grand Jury was held in the courthouse at Martinez yesterday and several matters are understood to be coming before the board of inquisitors for consideration including the readjustment of salaries for county officials which will come before the Legislature at the session this winter.

Thomas Carmel, foreman of the jury stated that the expert who was employed by the jury to expert the books of the various county offices has completed his work and the report has been filed with the secretary and will be included in the annual report when it is made.

HITCHCOCK PROPOSES BIG LOANS TO AID THE FARMERS WASHINGTON, Dec. 2.—Immediate loans of \$60,000,000 from Government funds to aid farmers in the face of falling prices of their products is proposed by Senator Hitchcock, Democrat, Nebraska in a bill drawn today after a conference with Governor Harding of the Federal Reserve Board. Senator Hitchcock plans to present the measure when Congress meets next week.

### Gun Welders' Trial Set For December 7th

Trial of Miguel Lemos, Mexican of this city charged with assault to commit murder was set for Thursday December 7th by Superior Judge A. B. McKenzie and a jury to try the case was summoned. Lemos is alleged to have shot a woman through the hand October 28th at the Santa Fe camp near Richmond.

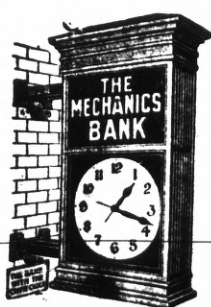

### HALF MILLION FIRE.

JASPER, Ala., Dec. 2.—Fire originating early today in the building of the Crawford Mercantile Company destroyed 20 business houses and 10 residences before it was brought under control. Early estimates place the loss above \$500,000.

### Fifteen Cars Of Celery Leave Antioch Daily

At the Santa Fe warehouse at Antioch Will Bloomfield and Steve Cleve with a full force of warehouse men are shipping fifteen to twenty carloads of celery every day. This delicious vegetable is routed to all points east and is gathered from all over the delta. This season's crop is the finest that has been shipped through this packing house in six years.

### Others Have Gotten Rich Why Not You?

THE MECHANICS BANK

"A Sign of the Clock."

Others have worked for just as little and even smaller wages than you receive and have been able to deposit a snug sum in the bank, where it earned interest for them night and day and year, round—why not you? Others, young and old, men and women, right here in Richmond are regularly bettering financial conditions—are making the cash that they might fritter away, earn them 4 per cent per year, (compounded semi-annually) by being regular weekly depositors in the Savings Department of our bank—why not you?

### Did It Ever Strike You

The fear of old age never worries the man who has prudently invested a fair share of the fruits of his labor, during the efficient period of his earning career, in a savings account?

## THINKOGRAPHS by F. J. HULANISKI

## "PLAIN ORDINARY FELLOW"

After his election by an overwhelming majority the employees of Mr. Harding, the printers of the Marion paper he has conducted for many years, called upon him at his home and presented him with a gold printers' rule, as a symbol of the trade. He made them a little speech in accepting the gift and it is said there were tears in his eyes as he said:

"I have worked with you, and I have tried to be honest with you and God knows if I am called to responsibility I am going to be honest with everybody in the world. I don't know if I can meet these responsibilities fully, but I know that I can meet them with the same honesty that I have treated you. I am just a plain, ordinary fellow, but can be on the square, and that's all there is to it."

Irrespective of politics or partisanship, and irrespective of how many voted, there is not a man but what can heartily endorse that man who has tears in his eyes when he says that God knows he intends to be honest with everybody, is hitting the nail on the head with the American people might hard for after all is said and done that is all anybody can do or be, and all anybody wants or expects. "God knows I am going to be honest with everybody." Abraham Lincoln could not have said more.

"I am just a plain, ordinary fellow," the President-Elect continued, but I can be on the square, and that's all there is to it."

And that's the truth. A plain ordinary fellow that can be on the square has stated the whole case when he says that all there is to it, for that is all there is to it, sure enough. America and all the world needs more plain, ordinary fellows who know how to be on the square and who make up their minds to be honest with everybody and if that is the kind of a man the new president is to be it matters little whether he is Republican, Democrat, Non-Partisan League, Socialist or Mugwump.

A flannel shirt a luxury  
If washed it gets too small;  
So some owners of such garments  
Have no laundry bills at all.

Attorney General Palmer says he will be glad to get back to private life. We'll be glad when he gets back, also, so that makes two.

One facetious exchange remarks that since prohibition got in its deadly work the people of its section are so dry they have to fasten on postage stamps with a pin.

Henry Ford and his Dearborn Independent are ripping the Jews up the back, claiming they are in a plot to overthrow Christianity. Sounds fishy. The Jews' success in economic rivalry and to make money he has got to help build up, not tear down.

And now a fellow rushes into print with the bald statement that he recently saw a woman's ears. We don't believe a word of it. We haven't seen a woman's ears for a number of years, and don't believe they have any. It is curious, though, how keen they can hear the jingle of silver or the honk of an auto.

## DON'T PROHIBIT LOVE

Love is one of the jazziest intoxicants known, and it is quite possible after the other booze is all cut out, and tobacco is a thing of the past and a fellow can only take snuff on Sundays and then outside the city limits, that love, being intoxicating, will also be taboo. You never can tell when a man is drunk he sees all sorts of snakes, which was probably what was the matter with Adam and Eve. They were intoxicated with love and saw talking snakes dancing jazz around the apple orchard. That snake had legs too, as big as those of a chorus girl, for the Lord cursed it and compelled it to crawl on its belly the rest of its life; hence it got its leg pulled, so to speak or words to that effect. But that is a side issue to the fact, that love is as intoxicating as home brew. A man drunk on red liquor trails the tails of his coat down the asphalt, tripping and informing everybody that he is in town, but those drunk on love hide away from the busy haunts of men and write poetry for the magazines. One gets ten days in jail and the other gets worse. Some people never get drunk on either liquor or love, but their blood is like ice tea and their affections are like unto the real article as a slight cold is to Spanish flu. Temperance is a mighty good thing in its way, and we are highly in favor of it, but the man who is temperate in love has a screw loose in his upper berth and cannot be trusted. A real man or woman can no more love moderately than a powder magazine can explode on the installment plan. Men's bootleg brewed enchantments may be set aside by acts of human will, but the wine of love creeps like a subtle perfume through all the senses, brewed by the gods and against which no prohibition law can possibly prevail.

Half a million Germans are trying to immigrate to this country also 250,000 Polish Jews, as well as hundreds of thousands from Russia, Italy, Austria and other countries—millions upon millions of them. It is going to be some job for the new administration to see to it, that only those desirable are admitted.

Uncle Sam has no more business butting in about England's control of Ireland than England has doing the same with us, about the Philippine or Hawaiian Islands, and we would not stand for that a minute. We are not in the butt in business, anyway—don't even butt in about Mexico.

California's citrus fruit crop this year amounted to \$82,000,000, according to the figures compiled. Don't doubt it in the least. We bought a couple of dozen oranges during the summer and paid something like that for them.

A number of men arrested at a San Francisco gambling club, where a young man was robbed of \$700, have been set free by the court on the technical plea of their attorney that it was not proven that they visited the club for the purpose of gambling and might have visited it for some other purpose. Such bally rot as that gives people contempt for the courts. A burglar might not visit a house at night for the purpose of stealing, either—he might be just trying to find out whether the inmates were enjoying their slumber normally or not.

## NEW COMPANY WILL TAKE OVER OIL HOLDINGS SOUTHERN PACIFIC

At a special meeting held in New York City, Wednesday, December 1, the Board of Directors of the Southern Pacific Company adopted the following plan for the separation of its California oil properties and of its stockholdings in the Associated Oil Company from its railroad properties, according to a statement by J. Kruttschnitt, chairman of the Southern Pacific Company executive committee.

A new company to be known as the Pacific Oil Company will be organized under the laws of the State of Delaware with a capital stock of 3,500,000 shares of no par value for which the Southern Pacific Company will subscribe at fifteen \$15.00 dollars per share or \$52,500,000. From the amount so realized the new company will purchase from the Southern Pacific Land Co., as of January 1st, 1920, for \$43,750,000.

About 259,000 acres of land now owned by the Southern Pacific Land Co., situated in the State of California of which about 250,000 acres are proven oil lands and the remainder lands heretofore withdrawn from sale as possible oil lands, together with existing field improvements and materials and supplies.

B. 200,690 shares par value \$20.00, representing 50.48 per cent of the outstanding capital stock of the Associated Oil Company. By the sale of these properties the Southern Pacific Land Co., the entire capital

stock of which is owned by the Southern Pacific Company will thus receive \$43,750,000 in cash and the Pacific Oil Company will retain \$8,750,000 as working capital.

Holders of the capital stock of the Southern Pacific Company registered as such on the books of the Company at the close of business on January 14th 1921 will be given the right to purchase at fifteen \$15.00 dollars per share, payment to be made in full on or before March 1st 1921, one share of stock of the new company for each share of Southern Pacific Company stock so held.

For the information of stockholders and the holders of the five per cent convertible bonds of the company it is proper to state that the stock of the new company is fixed at 2,500,000 shares to correspond to the nearly as may be to the total number of shares of the Southern Pacific Company's stock outstanding together with shares reserved for the conversion of these bonds.

The stock of the Associated Oil Company is at present receiving dividends at the rate of six per cent per annum. The net earnings of the Southern Pacific oil properties above referred to for the year 1920, after deduction of all taxes and proper reserves for depreciation will approximate \$12,000,000 and the earnings for the year 1921 based upon the present estimate of production and prices should considerably exceed this sum.

## Most Beautiful Woman in America At The Theatre

Katherine MacDonald famous for her remarkable scene interpretations, and well known as The Most Beautiful Woman in America will appear at the Richmond Theatre today in the star role of the pictureization of the novel by Mrs. Baillie Reynolds entitled "The Notorious Miss Lisle."

This latest First National Attraction is the story of Gaenor Lisle, beautiful young English girl who is annoyed by the publicity given her participation in a popular scandal affair, and leaves England, embarking on a series of romantic incidents culminating in a breathless climax, wherein Gaenor, married to a man who knows nothing of her past, is requested by her husband to acknowledge or refute the charges that have been made against her.

Under the capable direction of James Young, the story does not lag nor fail to keep the interest of spectators at the highest pitch. On the same bill is an educational comedy reel, Ford news and Select News.

Lenine is quoted as hoping for raw materials from the United States. Surely we sent him some in that ship load of deportees.—Pittsburg Gazette-Times.

## HOT WATER FOR SICK HEADACHES

Tells why everyone should drink hot water with phosphate in it before breakfast.

Tells why everyone should drink Hot water with phosphate in it before breakfast.

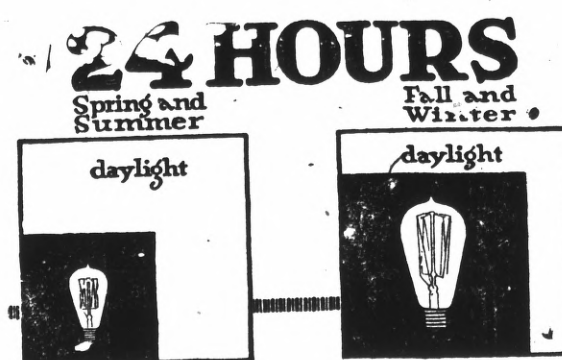

Headaches are caused by auto-intoxication—which means self-poisoning. Liver and bowel poisons called toxins, sucked into the blood excite the heart which pumps the blood so fast that it congests in the smaller arteries and veins of the head, producing violent throbbing pain and distress, called despondent, sick, feverish and miserable, your meals sour and almost nauseate you. Then you resort to acetanilid, aspirin or the bromides, which temporarily relieve but do not rid the blood of these irritating toxins.

A glass of hot water with a teaspoonful of limestone phosphate in it, drank before breakfast will not only wash these poisons from your system and cure you of headache, but will cleanse, purify and freshen the alimentary canal.

Ask your pharmacist for a quarter pound of limestone phosphate. It is inexpensive, harmless as sugar.

If you aren't feeling your best, if tongue is coated or you wake up with bad taste, foul breath or have colds, indigestion, biliousness, constipation, or sour, acid stomach, begin the phosphate hot water cure to rid your system of toxins and poisons.

Look over the bargains in today's Many bargains are listed in the Record Herald classified columns

## These Charts Show Why Your Electric Light Bills Are Higher Now Than In Summer

Study the above charts. The one at the left shows the relative number of hours of daylight and darkness and the hours of use of Electric Light in each day during the Spring and Summer.

The chart at the right shows the same comparison between darkness, daylight and hours of use of Electric Light, but for the Fall and Winter months.

You will notice that there is two-thirds more darkness in each day during the Fall and Winter than in the Spring and Summer, and, that on account of it, it is necessary to use your Electric Light nearly three times as much every twenty-four hours as in the Spring and Summer.

It is only natural, therefore, that with this increased consumption of Electric Light for lighting, your Electric Light bills will be somewhat higher.

## LIGHT AND AIR ESSENTIAL FEATURES OF GOOD KITCHEN

A conveniently arranged and equipped kitchen means lighter work and shorter hours for the housewife and her helpers, say household specialists of the United States Department of Agriculture, who give the following hints in Farmers' Bulletin 607, *How Farm Kitchen as a Workshop*:

Plenty of light and good air are essential to good results in the kitchen and to the comfort of those working there.

Running water and a drain for carrying off waste save the housekeeper many steps and many hours.

Pantry, dining room, and store rooms should be convenient to the kitchen and so far as possible on the same floor level.

Floor, walls, ceiling and woodwork should be made as easy to clean as possible by oiling, painting, or covering with suitable washable material. Unfinished wood floors, moldings and table tops are poor economy; they are hard to clean and soon show stains and signs of wear.

Durable, convenient equipment is most economical and should be so placed that there is the least possible strain on the workers' muscles as she performs her tasks. Many of the tired backs are the result of improperly placed kitchen equipment.

## PHILIPPINES OPPOSED TO PROHIBITION IN ISLANDS

MANILA, Dec. 2.—The joint committee of the Senate and House appointed at the last session of the Legislature to study the liquor question, has prepared a report against the passage of a prohibition law in the Philippines, it was announced today. The report says that there is no necessity for prohibition as the liquor business in the Philippines declined slightly in volume last year.

It's not trouble at all to earn a hundred per cent on an investment in this town. Just bite off a subscription to this sheet and the job is done.—Bartow (Fla.) Record.

## RED CROSS ISSUES 100 PER CENT LIST

Although it will be several days before the final returns are made in the fourth annual roll call of the Red Cross, a list of the 100 per cent places have been prepared as follows:

Western Pipe & Steel Co., Pullman Shops, California Wine Association, School Employees, S. P. Ry. Co., California Cap Works, Visayan Refinery Co., Blake Brothers, Princeton Knitting Mill, Richmond-San Rafael Ferry, Dairies, Western States Gas & Electric, Tilden Lumber Co., San Pablo Lumber Co., Home Laundry, Steam Laundry Pacific Sanitary Mfg. Co., Postal Clerks, City Hall, Gold Mine Restaurant, Seventh St. Garage, Woolworth Store, Japanese Camp, East Bay Water Co., Pacific Gas & Elec. Co., Fire Department, Police Department, Pacific Tel. and Tel. Co., Richmond Daily Independent, Richmond Record-Herald, California Market, First Nat. Bank, Mechanics Bank, Richmond and Central Markets, Pioneer Electric Co., Kralzer Garage, Cottage Hospital, Craven Hospital, Emergency Hospital, Richmond Club, Marathon Candy Store, LaMoine drug store, 9th St., LaMoine Drug store, 6th St., Lang Legarde French Laundry, Star Apartments, Niederer Drug Co., Big Store, Episcopal Church.

Following is the list of those taking memberships, as reported to date: Rotary Club, 5 contributing memberships, \$25; Lady Macabees, 1 contributing membership, \$5; Royal Neighbors, 1 contributing membership, \$5; Ladies' Auxiliary of American Legion, 1 contributing membership, \$5; Home Bakery, 1 contributing membership, \$5; Stiefvater, 1 contributing membership, \$5; Big Store, 2 contributing memberships, \$10; Liberty Yeomen, 1 contributing membership, \$5; Contra Costa Temple 113; Pythian Sisters, \$5.

Following is the list of sustaining memberships reported in today: City Council 10 sustaining memberships, \$100; Princeton Knitting Mills, 1 sustaining membership, \$10; Redmen, 1 sustaining membership, \$10; Acantha Chapter of Eastern Star 113 sustaining membership, \$10; American Legion, 1 sustaining membership, \$10.

## Rights Private Property at Stake in Railroad Contest

The San Francisco Chronicle yesterday morning speaking editorially concerning the "Joint Terminal Question" has a very able article and contends the question should be decided with reference to the fundamental principles involved. The article reads:

"The State Railroad Commission has ordered the Southern Pacific Company to continue to permit the Santa Fe railroad, of course, with due compensation, to use the Southern Pacific terminal facilities at Oakland. It also contemplates requiring all railroads centering in Los Angeles to abandon their present terminals and unite in the construction of a common passenger station. Whether compensation for the abandonment of expensive properties is contemplated, and if so by whom paid, we are not informed.

"It is assumed that the Southern Pacific Company will refuse to obey the Oakland order on the ground that it needs all the property which it owns for its own purposes, present and future, and that the Commission has no authority to compel it to surrender the use of property which it owns and needs to a very active competitor. It is also assumed that the case will ultimately go to the Supreme Court of the United States, when the law will be declared for the entire country. And that is what should be done.

"The public welfare is paramount, but under the Constitution it must be served with due regard to the property interests of citizens. If a property is taken or damaged for the public benefit just compensation must be made. That is the fundamental issue in this and similar cases. And taking cognizance of the open, vicious and widespread attack on the rights attached to private property in all parts of the world the convenience of Oakland and San Francisco and the injury to Richmond are trifling. It is to our interest that the service should continue as it is. But it is of greater interest that the rights of private property should be maintained."

## Questionnaire Of Rev. Paul Little Sunday Evening

At the Wesley Methodist Church, the following QUESTIONNAIRE will be conducted by Dr. Little on Sunday night. Many and varied questions have been received of late and these will be discussed in their turn.

1. What Church does President-elect Harding belong?
2. Give us your view of the Shipping Board Scandal?
3. Does science and religion conflict?
4. What is the name of the least quantity of matter?
5. How do you account for the present wave of crime and burglary?
6. How long did the Spanish-American War last?
7. What was the name of the first stamship that crossed the Atlantic?

What were the names of the three "Wise Men"? Should America intervene in Ireland? The Questionnaire will be followed with a helpful sermon on "The First Sabbath—The Holy Hall," it being the fifth discourse in the series. The Choir will render appropriate music.

## Auto Signs To Be Placed on Roads Of Contra Costa

Signs to the number of 675 have been ordered by Engineer J. W. Johnson, of the California State Automobile Association for Contra Costa County and Sonoma County is being surveyed by the Association with the object of erecting additional signs in this territory.

## Elks Will Hold Lodge of Sorrow On Next Sunday

Next Sunday afternoon at 2 o'clock the Richmond lodge of Elks, No. 1251 will hold its annual lodge of sorrow. The following program has been prepared for the service:

- Prelude, "Spring Flowers", Wood, Orchestra.
- Processional, "The Death of a Hero", Beethoven, Orchestra.
- Opening Ritual, By the lodge exalted ruler, G. B. Fredenburg, presiding.
- Solo, "Abide With Me", Liddle, Miss Marie Grant, Soprano.
- Solo, "Dal Profundo" (From the Depths), Campana, Lowell Redfield, Baritone.
- Violin Solo, "Adoration", Borowski, Ward McRacken.
- Oration, Rev. T. A. Boyer.
- Duet, "Come Unto Him", Faure, Miss Grant and Mr. Redfield.
- "Auld Lang Syne", by the lodge.
- Closing Ritual, by the lodge exalted ruler G. B. Fredenburg, presiding.
- Benediction, Chaplain.
- Recessional March, From Faust, Orchestra.

### KEEP A DRY CELLAR

A few homemade cement gutters will drain away the water from the gutter pipes and help keep a cellar dry. The cement ditch can be 8 inches wide, 2 inches thick and widened at the receiving end to resemble a shallow platter. It should be sufficiently long to carry the water from the gutter pipe far enough from the house foundation to prevent seepage. If the work is set flush with the ground it offers no hindrance to passing feet or to the lawn mower.

### GIVE POULTRY RIGHT KIND OF FEED AT FIXED PERIODS

Feed according to the appetite of the birds no definite rule can be given. Feed scantily of grain in the morning and give all the grain they will eat in the afternoon in time to find it before dark. There should be no grain in the litter at noon; when found it indicates feeding too much in the morning.

In general, feed by weight 2-3 parts of grain to 2 parts of mash. When the birds are laying heavily they should consume a larger amount of mash.

A green range of alfalfa, clover, or grass furnishes the ideal condition. When these are not available it is necessary to give the birds some kind of succulent food. Mangel beets, cabbage, sprouted oats, or green clover are usually considered the best green feeds. If these are not obtainable, apples and potatoes make a valuable addition to the ration. Feed at noon in such amounts as the birds will clean up before night.

Hard, sharp grit is necessary for grinding feed; oyster shell to supply lime for egg shells. Neither will replace the other.

### FIND NEW PEANUT MARKET

One of the functions of the county agent under the cooperative extension system carried on by the United States Department of Agriculture and the State colleges of agriculture and the State colleges of agriculture is to devise new channels for marketing stock and produce. In Barham County, Ala., mill prices on peanuts were lower than the farmers deemed profitable. Through the efforts of the county agent, 23 carloads, 460 tons were sold to the confectionery trade at an advance of \$17,250 over the mill prices. Cooperative marketing saved the farmers from \$30 to \$37.50 a ton.

## Around Our Town

After the show drop in at the De Luxe, 1100 Macdonald avenue for a delicious milk shake, dish of National ice cream of high grade candies.

Why be worried over desert, let us supply you with a delicious blend of National or Polar Ice Cream, eight flavors to pick from. See us first for Christmas candles, always the best. Clark Brothers, 1010 Macdonald. 11-23-Imo

Don't forget the Richmond Club bazaar, December 3rd and 4th. 11-28-6t.

Next Friday and Saturday, the bazaar of the Richmond Club will be held at the clubhouse. 11-28-6t.

Fancy work, cakes and pies and other useful things can be purchased at the Richmond Club bazaar to be held December 3rd and 4th. 11-28-6t.

At the Pythian Castle on the evening of the 22nd of this month the Ladies Auxiliary of the American Legion will entertain by giving a turkey whist.

At East Shore Park tonight the second annual ball of the Standard Oil Bowling Association will be held and Elmer Hubbard will be featured at the piano.

Ray McCormick, son of Policeman Bernice McCormick did not take his mother into his confidence, when he made a trip to Los Angeles last week and got married to Miss Ethel Ramond, a school teacher of that city. The couple will reside in the south.

Bids will be opened by the high school trustees on the 13th of this month for putting a maple floor in the gymnasium.

Master Mechanic E. H. Harlow states that the shops of the Santa Fe here are filled with work and no men will be laid off.

December 8th at Crockett has been the time set for the next meeting of the County Federation of Women's Clubs.

A card party and dance was given in W. O. W. hall by the Praetorians last evening.

Wednesday afternoon at the home of Mrs. George Richards in Berkeley, a miscellaneous shower was given in honor of Mrs. Rose Embree who is to be married in the near future.

Charles J. Cray, President of the First National Bank was in Martinez yesterday.

K. H. Kueffer, well known realty agent was a county seat visitor Thursday.

It's all right to be cautious. Scared to death is another kind of a sensation and nothing that one can be proud of. Warm up to newspaper advertising. It won't bite you.—Scottville (Mich.) Enterprise.

## C. L. C. Girls Christmas Party Next Saturday

The C. L. C. Girls of the Wesley M. E. Sunday school will have their Christmas party in the basement of the church Saturday from 2 p. m. to 4 p. m. The admission fee will be a game, a toy, or some fruit which will be sent to the orphanage.

At the conclusion of the program there will be games and refreshments will be served.

The program prepared is as follows:

- Piano Solo, Verna Kemp.
- Recitation, Lula Walker.
- Piano Solo, Elsie Johnson.
- Drill, Ten Girls.
- Piano Solo, Alma Larrabee.
- Dialogue, Martha and Mary McBee.
- Song, Janice Stegeman.
- Piano Solo, Pauline Little.
- Recitation, Flora McBee.
- Song by the Girls.
- Piano Solo, Mary J. Walker.

### COMBATING PESTS IN WINTER

When the orchards have been cleared of apples there is time to go through the near-by woods and hedges and cut the wild cherry trees and bushes which are the bivouacs of the tent caterpillars that raid the orchards in the spring, say specialists of the United States Department of Agriculture. It is a good time to inspect for borers and to put down mice and rabbit guards at the same operation. Trample the grass flat at the tree base to allow a close inspection for sawdust from adjust the wire or paper guard, the borer's operations and then

## The Home-Staying Dollar

Is the dollar that counts in the long run. It's the dollar that eventually "comes back." If Jones buys a suit of clothes from Smith and Smith buys a pair of shoes from Jones the dollars involved in the transaction stay in Richmond and both Jones and Smith make a profit.

If, however, Jones buys his suit in some other town and Smith goes elsewhere to buy his shoes, both Jones and Smith lose a profit and the money each spends may never come back to Richmond.

Too many Richmond people buy suits and shoes—and many other necessities—in other cities. Richmond is a prosperous community to be sure, but not nearly so prosperous as it would be if we all remembered that the home-staying dollar.

## Makes Business Good

## Pasteurized

Is it worth anything to you to know that the milk you and yours are drinking has passed THE HIGHEST TEST FOR PURITY? Is it worth anything to you to know that you and your family are enjoying the precaution and the pleasure of having the HIGHEST GRADE OF MILK that can be produced?

Our expert method of producing and bottling, OUR CLEAN AND HEALTHFUL COWS, all supervised by men who know how have solved the milk problem for you. Our customers rest in assurance which only reliability can produce.

## Counties to be Relieved of Tax Burden State Roads

Supplementary roads essential to a complete state highway system may now be constructed by the various counties of the state as the result of the passage of Amendment No. 9.

Early next year under the Amendment which was carried through the efforts of the California State Automobile Association, all counties of the state will be relieved of heavy interest payments to the state and this burden placed upon the state, where it properly belongs. In the past the poorer counties of California, according to Director Burton A. Towne of the association, who actively managed the campaign have been paying thousands of dollars annually to the state in interest for state roads from which all sections derive direct benefit. Continuation of the state programme without an indefinite and costly delay is also assured. Beating as they now do,

a flexible interest rate up to 6 per cent, California's highway bonds will always be assured of a ready market.

The question of the adequacy of California's highways to withstand present and future traffic did not in any way enter into the association's campaign for Amendment No. 9. This question is now being determined by investigations being made by the State Association and the Automobile Club of Southern California and the United States Board of Public Roads. The Association, according to Director Towne, made the successful campaign for Amendment No. 9, solely for the purpose of relieving the counties of staggering interest burdens and to provide for future financing on an equitable and just basis without reduction of the total mileage contemplated through use of Federal funds to discount the bonds and without an indefinite and costly delay.

## Physical Tests Not Necessary To Attend School

The Los Angeles Board of Education acting in compliance with an alternative writ of mandate issued by the Superior Court of Los Angeles County, to-wit reinstated Mary A. Edmonds, a pupil in one of the grammar schools of the city. The case involved a rule which health authorities have sought to enforce that all children out of school for a day or more must submit to a physical examination before being readmitted. This is unlawful, according to the Public Health Protective League, which brought the action in the Edmonds case.

"Under the law," says the League in its statement "any child who there is good reason to believe is suffering from a contagious disease may be excluded from school. This is a wise and proper regulation. The effort, however, to compel a physical examination of every child who has been absent from school one day and who there is no ground to believe has either been exposed or affected with any contagious disease is merely an attempt to circumvent the law giving parents the right to demand exemption of their children from physical examination."

"The legislature of 1919 passed a law giving the parents of every school child the right to demand exemption from physical examination and a large majority of California parents have taken advantage of it, notwithstanding the general campaign which has been carried on to ignore it."

This law has been upheld by the courts in several cases and an increasing number of people are

requesting exemption of their children under its provision.

## HOMEMADE LIMEKILN WILL SUPPLY SMALL FARM NEEDS

When there is a source from which the farmer can obtain limestone or oyster or clam shells he can prepare his own lime by grinding or burning. If small amounts of lime are needed the burning of the material furnishes lime more cheaply than does grinding. Two rows of cord wood mixed with lighter kindling are put down to form a layer. Next comes a layer of coal, then a layer of limestone, and after this alternate layers of coal and limestone. One part of coal should burn several parts of stone. When the pile is laid up the whole is covered with a layer of earth and the kindling ignited. As the burning continues the gas must be allowed to escape through a hole at the top of the pile or the process will not be entirely satisfactory. Oyster shells and clam shells may be burned in the same way. The fire should be always under control and precautions taken to allow the flames to penetrate the layers of stone or shells.

## POULTRY REQUIRES PLENTY OF MINERAL FOOD IN DIET

Grit is essential to the health of fowls and to economy in feeding. Grit takes the place of teeth in preparing the feed for further digestion and is required for the proper preparation of feed in the gizzard. When the feed is not properly taken care of in this organ, an undue strain is thrown on the fowl's system, often resulting in disease and also allowing much of the nutriment to pass through the bird's body without being absorbed. In every pen or yard a box of grit when they have to sell them for should be kept. Recent investigators

## Girl Wedded at San Rafael But Did Not Know It

"A great many justices of the peace fail to make the marriage ceremony sufficiently solemn and impressive," said Superior Judge E. P. Mogan, of San Francisco, from the bench yesterday after Ruth Emanuel, aged 17, and pretty, testified on the witness stand that she had been through a marriage ceremony at San Rafael without knowledge that the ceremony was in earnest.

The girl was granted an annulment of her marriage to Leo Patek, an employee of the Standard Oil Company, on petition of her father, David Emanuel 558 Twenty-sixth avenue.

"I didn't know we were married," said the girl.

"Leo took me to San Rafael in November, 1919, and we got a license that we were to keep until we became of age. Then we went into an office, where there was an old man with white whiskers, with whom Leo talked, and then put my ring, which he had borrowed, back on my finger. When we came out, he said: 'That was easy, wasn't it?'"

"I asked: 'what?'"

"He said: 'Why didn't you know it? We were just married.'"

Judge Morgan asked Miss Emanuel what she thought the marriage ceremony entailed.

"Well, I don't know, except that in the movies they have ministers, and bridesmaids, and orange blossoms. I was disappointed and came home," she added.

Mrs. Julia Emanuel, mother of the some and lots of people," she replied, said that Patek, the husband, was but a boy.

have asserted that grit is a part of the necessary feed of a flock, giving the fowls strong bones and a bright plumage.

Ordinarily, the hen does not consume enough lime to form the shells of eggs, if she is laying abundantly, unless something besides the ordinary grain feeds is accessible to her. Oyster shells are good for this purpose. A box of crushed shells may be placed before the fowls, allowing them to eat at will. Old mortar and fine gravel are also useful in supplying lime, say poultry specialists of the United States Department of Agriculture.

Charcoal readily absorbs gases, impurities, and acids, and thus acts as a corrective when the stomach is sour and digestion has been impaired.

The newspaper publishers who don't dare to raise prices to meet present conditions will also be afraid to ask what their plants are worth when they have to sell them for junk.—Gilmer (Tex.) Mirror.

## Court Decides No Control Over Any Navigable Stream

Since the Superior Court or other state courts have no jurisdiction over navigable streams Superior Judge T. C. Denny of Santa Rosa in findings of fact and conclusions of law in a suit instituted by Reclamation District No. 1619 against the Island Transportation Company to enjoin the company from using a dredged out channel by its ship yesterday in the Superior Court at Martinez directed that the suit be dismissed.

The suit, brought to secure a straight injunction to stop usage of a channel dredged by property owners in the delta district to secure earth with which to construct levees lies only within federal jurisdiction, according to Judge Denny's decision. The suit was brought in the local courts more than two years ago and was heard by Judge Denny while Superior Judge A. B. McKenzie was assigned to Santa Rosa to try a case there.

The channel 600 feet wide, connects Sand Mound and Taylor Sloughs in the eastern section of the county. The reclamation district, which embraces approximately 3500 acres of land, contended that operation of ships through the channel, which greatly cut distances for vessels, destroyed levees by the action of the water. Property owners contended that the waterway was private property dredged by individuals. Several years ago the county maintained a bridge across the artificial channel but removal of the structure was directed by the war department on the ground that it interfered with navigation.

In his decision Judge Denny holds the channel is a navigable stream and subject only to the jurisdiction of federal courts.

## AMERICAN CLASS OF POULTRY POPULAR IN THIS COUNTRY

In the American class of poultry are found the Plymouth Rock, Wyandotte, Java, Dominique, Rhode Island Red, and Buckeye.

The fowls of these breeds are commonly called general-purpose fowls, because they are not only good egg producers, but their carcasses are also well suited for the table. They are therefore the best breeds for the general farm flocks of chickens, say poultry specialists of the United States Department of Agriculture. They are in good favor, too, with the poultry packers on account of their table qualities.

All the American breeds lay brown shelled eggs. They all have yellow skins, and shanks free from feathers which are desirable qualities for able fowls in this country. In size they are intermediate between the smaller egg breeds, such as the Leghorns, and the larger meat breeds such as the Brahmas. In temperament they are also intermediate, being less active than the egg breeds, but more so than the meat breeds. They are fairly good foragers. The American-class birds mature earlier than the meat breeds but not so quickly as the egg breeds. They are sitters and make good mothers.

Of course, we don't expect you to believe all of the brilliant and learned things we write. We don't ourselves.—Roseville (Ill.) Times-Citizen.

## DIVORCE DECREE GRANTED

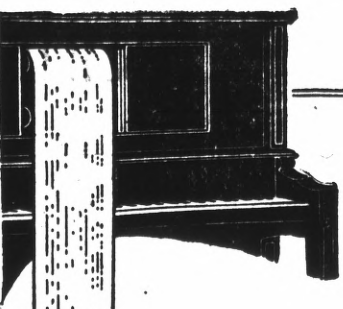

A final decree of divorce was awarded Thursday to Lucille K. Beck from Samuel N. Beck by Superior Judge A. B. McKenzie.

One very important requirement for marketing farm produce direct to consumer is a proper and satisfactory shipping container. Adaptability to the particular produce, size, appearance and cost are the principal factors to be considered.

The hardest job in the wheat fields this season was to keep the harvest participants from running off and joining one of those widely advertised trips to Europe.—Concordia (Kans.) Blade-Empire.

## IF SKIN BREAKS OUT BURNS AND ITCHES APPLY SULPHUR

Just the moment you apply Mentho-Sulphur to an itching, burning or broken out skin the itching stops and healing begins, says a noted skin specialist. This sulphur preparation, made into a pleasant cold cream, gives such a quick relief, even to fiery eczema, that nothing has ever been found to take its place.

## THROAT TROUBLE CURED

Oakland, Nov. 1, 1920. To whom it May Concern:

I suffered from throat trouble for 15 years, during which time I could neither eat nor swallow without pain. I became very weak and was unable to work for months. I had numerous doctors and then tried a Throat specialist, who told me that my trouble was due to the blood. He advised me to take blood medicine. Thereupon my brother, who had been cured of Stomach Trouble by the FONG WAN HERBS, urged me to try them. After drinking the herbs for 15 weeks, I felt entirely well. It is 10 months since I took the herbs, and I am now giving this testimonial to let the public know that any sufferer should try the FONG WAN HERBS. I am a watchman for the California Food Specialties Co.

## COMINGS AND GOINGS OF PEOPLE EL CERRITO AND INTERESTING ITEMS CONCERNING THAT CITY

Mrs. A. L. Hawthay, who is at the Craven Hospital is reported as improving.

A baby girl came into the home of Mr. and Mrs. A. Bettencourt this week. Baby and mother are doing fine.

Miss Ina Josephson of Berkeley, is a guest of Miss Anna Ross.

The Foresters had a good crowd at the whist party Wednesday evening. Mrs. A. H. Mackinnon won the turkey.

The Mothers' Club entertained the graduates of the Fairmont school at a social on the evening of the 18th.

The members of the Volunteer Fire department expect a large crowd at their whist party to be given Saturday evening, December 4th. The prize will be a big fat turkey and the proceeds derived from the party will be used for the Christmas tree, for the kiddies.

The Mothers' Club will give a whist party at the school house, on the evening of the 11th. Anyone wishing to donate a prize for the party can leave it at the postoffice.

Jean Mackinnon has been quite ill for the past week, suffering from poison oak.

Peter Allino has been on the sick list for the past few days.

After a serious illness, the many friends of Rube Curry are glad to see him about again.

Mrs. M. G. Winlund, who has been residing with her daughter, Mrs. P. A. Stenberg for some time, recovering from injuries as the result of an auto accident, has taken up her residence at 335 Liberty street.

It is reported that E. N. Tapscott is to immediately start the erection of ten modern homes in the northern section of the city.

## Short Session El Cerrito Trustees Held Last Night

In the absence of Mayor Phil Lee last evening, Trustee George Conlon presided at the meeting of the trustees of El Cerrito.

The report of the treasurer, J. Frank Walsh showed that there was on hand \$5112.21 and during the

month there had been collected \$5789.

A communication was read from the Parent Teachers Association asking the endorsement of a plan to secure a branch county hospital in this section of the county.

## OVER ONE HUNDRED THOUSAND SOLDIER BOYS IN ARMY SCHOOLS

More than 100,000 soldiers are attending the schools established by the United States army, and when the program is made fully operative there will be more soldier-boys in the country than there are regular college students, according to army officers.

In addition to the courses giving training in trades and professions, schools for illiterates have been established by the army. In these study centers men who can neither read nor write English are given a basic education. More than 2000 teachers will be employed in the army schools.

The fact that fully one-fourth of the boys and young men of the country can neither read nor write was brought out by the draft boards at the time we went into war. Further it was shown that only a small proportion of them have any real training that will take them out of the ranks of hard labor and put them where they can earn a comfortable livelihood as skilled workers.

"This condition of affairs," said a government official here recently, constitutes a national danger and disgrace. The larger outlook is offered by these schools in the vocational training courses. There are more than 100 professions, trades, and pursuits from which to choose.

"One of the most interesting of these study centers is the school of agriculture and animal husbandry at Camp Grant, Illinois. The courses are conducted with the co-operation of specialists of the University of Chicago and the University of Illinois. The Government has stock farms here and breeds all the types of animals under study. Pupils are thoroughly instructed in the breeding and care of dairy and beef cattle, horses, sheep, swine and poultry. Governor Lowden of Illinois has shown great personal interest in this part of the work. He has in the vicinity of the camp a large and well equipped stock farm, where every phase of stock and cattle raising is carried on. Pupils have the privilege of making frequent visits to this farm and of observing in detail all its activities. Soldiers proving proficient in this branch of industry can, after leaving the army, take up home steads and stock breeders."

Men of a mechanical bent find open to them at several camps and post courses of practical study in the handling of internal combustion engines as used in airplanes, motorcycles, trucks and tractors.

Much valuable constructive work is done in other lines and soldier-students may become practical wage-earning printers, plumbers, painters, woodworkers, blacksmiths, farriers, radio operators and telegraphers.

A large meat packing establishment in Chicago recently has employed as meat inspectors four graduates of the army school at salaries

of \$250 a month. In the same city a firm of bread bakers is paying salaries of \$35 to \$55 a week to graduates of the army school for cooks and bakers.

### MUCH IN LITTLE

We forget our Almighty Father in grabbing the Almighty dollar. The profiteers demand and the rest of us supply.

Everybody gave thanks last month except the Democrats. No man can afford to feel like a thief for a few dollars.

The wolf wants liberty to steal sheep, and the fox to steal chickens.

Supporting a \$10,000 wife on a \$5,000 income is also high finance. The war plowed deep furrows into many human hearts.

Slow your running expenses down to a walk.

A profiteer is without honor in his own country, also.

We are casting bread across instead of on the waters.

Just now a word to the wise is "efficient."

We are a lucky people. Not a case of gout since 1914.

### PUBLIC NOTICE

NOTICE OF FILING REPORT OF COMMISSIONERS IN THE MATTER OF THE WIDENING OF MACDONALD STREET IN THE CITY OF RICHMOND, COUNTY OF CONTRA COSTA, STATE OF CALIFORNIA, IN ACCORDANCE WITH RESOLUTION OF INTENTION NO. 373 OF SAID CITY OF RICHMOND, ADOPTED ON THE 10th DAY OF MAY, 1920.

NOTICE IS HEREBY GIVEN, that the Commissioners appointed by the Council of the City of Richmond, County of Contra Costa, State of California, to assess the benefits and damages and have general supervision of the proposed work of widening said Macdonald Avenue and Nineteenth Street pursuant to and in accordance with Resolution of Intention No. 373 of said Council of the City of Richmond, adopted on the 10th day of May, 1920, having made their assessment of benefits and damages, and having made a written report thereof to the City Council of the City of Richmond, and having attached to said report a plat of the said assessment district showing the lands to be taken for the said work or improvement and the land assessed, showing the relative location of each district, block, lot or portion of lot and its dimensions so far as the Commissioners can reasonably ascertain the same; and said Commissioners having done all things by law required of them to be done;

NOW, THEREFORE, public notice is hereby given that said report and plat were filed in the office of the undersigned, Clerk of the City of Richmond, on the 29th day of November, 1920, and in pursuance of statute made and provided, the undersigned, A. C. Paris, Clerk of the City of Richmond, hereby gives notice of said filing of said report and plat, and all persons interested in said work or improvement, are hereby notified and required to show cause, if any they have, why such report should not be confirmed by said Council, by filing objections in writing with the undersigned Clerk of the City of Richmond at its office at No. 2555 Nevin Avenue, in said City of Richmond, as required by law, on or before Tuesday, the 4th day of January, 1921, and up to the hour of 5:00 o'clock P. M. of said last named day, which said last named day is hereby fixed by the undersigned for that purpose.

Dated: December 1, 1920.  
A. C. PARIS,  
Clerk of the City of Richmond.  
By J. A. DEADRICH,  
Deputy Clerk of the City of Richmond.  
(SEAL)  
Dec. 3, 4, 5, 7, 8, 9, 10, 11, 12, 14.

## TERMINAL QUESTION HEARING TODAY

Continued from Page 1

to the Oakland terminal and the business houses, property holders, schools and the general advance of the city will be affected. That Richmond's achievement in being made a port of Class B, in line with the secondary ports of the Pacific coast will suffer loss. That eventually it is believed the freight terminals at Richmond will revert to Oakland and the shops and round-houses of the Santa Fe at Richmond will be reduced to a minimum, if not entirely removed.

That all of the Sacramento and San Joaquin valley travel to San Francisco via Richmond will be directed to Oakland, and shipping as well as commercial trade vitally reduced.

### Great Benefit of Terminal

On the other hand, if the terminal is reinstated to Ferry Point, increased activities in railway circles will be immediate; additional equipment, more employees and modern facilities will be added and the two ferry boats again put in service to transport travel from this section of the San Francisco bay to San Francisco. It means that a stage line terminal and war department depot is possible for this city and in all probability meeting the increased travel over all rail lines additional ferry boats and better service to the people will maintain.

### Citizens Voice Sentiments

Voicing these facts, the following active citizens spoke at last night's meeting: J. T. Narbett, G. W. Penning, J. C. Hitchcock, W. H. Sanford, W. B. Trull, H. A. Stiver, W. A. Potter, Judge D. J. Hall, C. E. Clark and Secretary W. J. Wallace.

### Judge Hall's Opinion

Judge Hall talked upon the subject of the rights of the Railway Commission and the fact that the revocation of the special privileges of the City of Richmond as granted to the Santa Fe, would not doubt carry the subject of the terminal to the Interstate Commerce Commission and if decision is rendered before that body which does not protect Richmond's revocation of the special privileges as applied to war time measures, then the case will be carried to the Supreme Court. It was emphatically stated that the case as it stands has focused all eyes of the country upon Richmond and the outcome of the controversy. Many other cities with similar dangers were awaiting Richmond's future outlook with anxiety and interest. History of the pioneer days of the San Joaquin railway will enter into the argument for Richmond. A franchise granted the San Joaquin Valley railway by Contra Costa when the rail line was first laid to Ferry Point was conditional upon the operation of a ferry between Richmond and San Francisco. The Santa Fe assumed this franchise and is therefore liable for the fulfillment of its terms. The franchise would necessarily be violated to the extent of revocation should the terminal of the Santa Fe operate at Oakland and the ferry service be discontinued.

### MEETS WITH ACCIDENT IN UNLOADING LUMBER

While helping to unload lumber from a vessel at Ferry point yesterday W. S. Hart was struck by swing and knocked to the ground. He was taken to a hospital where it was found his injuries were but slight.

### DIVORCE SUIT FILED

On a change of venue order from Placer county suit for divorce was filed in the Superior Court Thursday by Lela D. Sutton against William Arthur Sutton.

## The High Cost of Deliveries is Really a Myth

Lots of people think that all grocery deliveries are expensive. That they greatly increase the cost of your food, and

That you ought to save by carrying your groceries home.

On the contrary, our customers find our delivery system really economical.

It saves time and energy—which can be more profitably devoted to their homes or to various outside interests.

We feel that it is part of a grocer's business to make deliveries. Our whole organization is built to serve you in this, and other ways.

For example, we maintain a telephone for your convenience, extend credit, carry the highest-quality groceries, and suggest to you various things we know to be especially good.

When we sell you the ingredients for a cake, we like to know how it's going to turn out, and

That's why we recommend RYZON, the Perfect Baking Powder.

A full 16-ounce pound for 45 cents.

Also in 25c and 15c sizes—all full weight.
